Redefining Process Centric Approach in Manufacturing, Supply Chain and IT

ISOL STAFF PLANNER

Managing your ground staffs has never been so easy

Smart doesn't have to be complicated. With ISOL's Staff Planner as your helper, you may leave your menial and non-value added tasks and finally focus on things that matter.

ON WEB AND SMART DEVICES

Manage scheduling and calendar with your preferred devices and allow your staffs to track their shifts and indicate preferences with a mobile app. What's more, it's time to get rid of time spent going back and forth.

IT'S A WIN-WIN

between Managers and Staffs.

APPLICATIONS

LOGISTICS CENTER

Ebb and flow of warehouse operations isn't always constant with fluctuating demand and supply, and managing tasks and shifts of your staffs may be more time-consuming and painful than you think.

RETAIL

With varying contracts and working hours of your staffs, it may be challenging to coordinate perfect shift planning everyday to fit everyone's schedule. It is time to leave mundane to-and-fro communication mess to technology.

MANUFACTURING

Flexibility in switching working days of the week has become an important feature in shift management. What's more, finding replacement may be a hassle for many managers. With Staff Planner, you may sieve out staffs who are capable for the task should you need extra manpower.

RESTAURANTS, HOTEL, CINEMAS ETC.

and more!

HOW IT WORKS

STEPS

- 01 SETUP**
 Establish working days of the week for each of your staffs based on contract
- 02 REMINDER**
 Remind staffs to input their availability for the next month
- 03 NOTIFICATION**
 Get notified when staffs make changes to their schedule
- 04 REPLACEMENT**
 Send messages to unengaged and qualified staffs to fill vacant shifts

MULTIPLE LOCATIONS

You may set up infinite number of sites where your business operates.. This can be multiple sites of your retail chains or warehouses in different cities or regions. Staff and task masters are set up according to each physical site.

PUSH NOTIFICATIONS

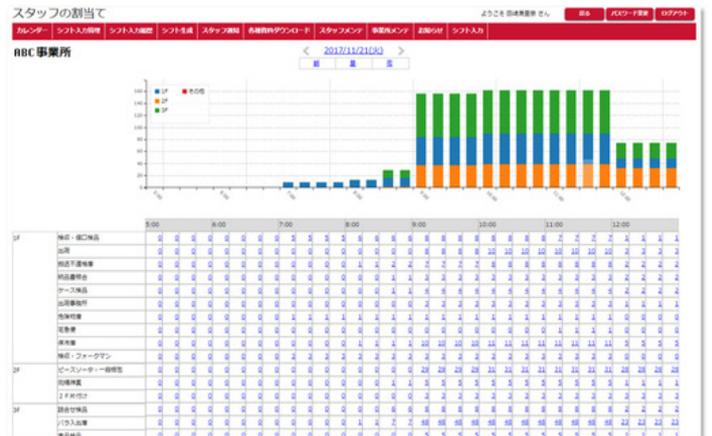

Receiving information real-time has enabled us to gain better control of our daily lives and businesses. Be notified when your staffs cancel a shift, or let your unengaged staffs know of a newly vacant shift so that you can ensure high attendance rate across your workforce.

OUR ARCHITECTURE

Built using GeneXus, a knowledge representation-based development tool catered to enterprise-class applications development, ISOL Staff Planner is agile and ready to suit your every need.
